

TIRED OF LIFE

**A. K. Draper Tries to Commit
Suicide by the Carbolic Acid
and Laudanum Route.**

FAILED TO ACCOMPLISH PURPOSE.

Mr. Draper had been in bad health for some time and in addition to this he was in trouble

financially to a small extent. These and other causes depressed him to such an extent he determined to end his earthly troubles. On Tuesday evening he purchased from John X. Taylor a small vial of laudanum and one of carbolic acid and carried them home. Before retiring that night

he said to his father he did not feel well and went to bed earlier

than usual. On entering his room he mixed the contents of the two bottles together, swallowed it and retired. In a short time his father heard him groaning and went in the room. He asked him if he felt worse, but received no reply. On approaching the bed Mr. Draper caught the scent of the carbolic acid and at

once surmised that his son had taken it. Dr. Johnson was called away and by prompt, energetic work saved his life. Mr. Draper stated to a representative of THE BEE that he was very despondent over business matters and had been ill so much he thought it was better to die than to live. He is getting along nicely now.

however, and says he will make no more attempts to take his life.

OTHO ANDERSON ASSAULTED.
County Attorney of Christian Knocked
Down on the Street by Bartender.

George Merritt, a bartender, assaulted Otho Anderson, county attorney of Christian, at Hopkins-

ville last Thursday, knocking him down and bruising his face. Merritt was mad because of a

question the attorney asked in a trial bearing upon the alleged

questionable character of a woman with whom it seems Merritt sustains friendly relations. Mr. Anderson knew nothing of such relationship and says he had to ask the question to which Merritt took exceptions in order to bring out necessary evidence in the trial of Mack Hern for killing his father, and that the woman was the alleged cause of the trouble between Hern and his father which resulted in the

latter's death. Merritt surrendered and plead guilty to the charge which might be brought against him.

"A Breezy Time," which will be seen at Temple Theatre Nov. 3, is one of the most effective farce comedies in town this season. It is diverting without being insane, and has a slight story which makes a very strong vehicle for introducing the various specialties of different members of the cast, each one of whom is an artist in his or her line.

Autumn is here in all her splendor. She has donned her gorgeous robes of red and yellow and many are enjoying themselves roaming through the woods. Sunday afternoon a part of grown folk and children met at the Arboretum and spent two hours in playing games and in drinking in the beauties of nature.

W. M. Herndon, who has been working on the Southern out of Princeton, Ind., is again working on the L. & N.

There will be "A Breezy Time" in Temple Theatre on Nov. 3, and all wise people will do well to take shelter in the Opera House on the date the Breeze is announced.

Mrs. Walker, who recently moved to this place from Madisonville, was overcome by heat on account of sitting too near the stove in Jas. Crenshaw's store Saturday. Restoratives were applied while a physician was being summoned and she was soon in a condition to be removed to the home of her mother, Mrs. Kestner, on Railroad street.

Fresh oysters, W. L. Walden's.

Rev. J. E. King preached his first sermon at the Southern Methodist church for this conference year last Sunday morning and evening to large and appreciative congregations. Rev. King will fill the pulpit next Sunday morning at 11 o'clock and evening at 7:30 o'clock. The public is earnestly invited to attend.

The next attraction at Temple Theatre after "The Moonshiner's Daughter" will be Fitz & Webster's newest, "A Breezy Time." The adjective that is included in the title of the farce comedy, "A Breezy Time," fully indicates the nature of the production.

It has been the purpose of the author to make the performance breezy; simply refreshing enough to revive jaded minds, and not cause the mind to sit in a draft, so to speak. The company includes 20 of the cleverest farceurs in the profession, each having been selected to exactly fit the role he or she may be cast for.

Quite a clever joke was played by one of the members of the juvenile Halloween party Monday night as a number of them were returning from the party given at Mrs. Frank Arnold's. It happened that just as they reached the railroad, about midnight, train No. 54 was standing at the depot, and one of the youngsters observing a lady's head protruding from one of the car windows, walked up to her with outstretched hands, wrapped in the sheet which she had worn to the party, and the lady evidently not thinking about it being Halloween, took it to be a genuine ghost, and with a yell that would do justice to a Commanche Indian, fell back in the car in a swoon, and was only awakened to a realization of the fact that she was the victim of a practical joke by the peal of laughter from the other passengers in the car who had caught onto the joke.

Miss Lella Rider, of Dawson, will visit friends in Earlington in a few days. Miss Rider is connected with the Oracle, a new little sheet published at Hopkins county's famous health resort.

The many friends of Dr. C. B. Johnson, who has been one of the company physicians for quite a while, will be sorry to learn that he has resigned his position and will leave Earlington in a short time. He has made many warm friends during his stay here and is regarded as a successful physician. Dr. A. W. Jackson, who takes his place, was formerly located in this place and is so well known that comment is unnecessary. A host of friends welcome him back to Earlington.

"The Owl Club" met with Mr. and Mrs. J. F. Everett last night. Ten games were played. Mr. and Mrs. Geo. O. Toy were champions, winning nine out of the ten and are consequently wearing the handsome gold championship medals this week. Light refreshments were served at midnight. The club meets with Miss Carrie Crenshaw next Wednesday night. All members are requested to be on hand promptly at 8 o'clock.

Phrenologically speaking, your bump of mindfulness will increase in size if you will witness "A Breezy Time" at Temple Theatre Nov. 3. A man who is imbued with jollity never can bear any derangement of the brain, nor worry himself about his longevity, as it is an acknowledged fact that mindfulness will produce long life, besides bringing out the better qualities of the inner man, and next to a good meal a man wants amusement, and when it can be obtained as easily as it can by witnessing that unequalled bunch of laughmakers—A Breezy Time Company. First class in every particular.

The Best Liniment.

"Chamberlain's Pain Balm is one of the best liniments on the market," write Post & Bliss, of Georgia, Vt. No other liniment will heal a cut or bruise so promptly. For other affords such quick relief from rheumatic pains. No other is so valuable for deep seated pains like lame back and pains in the chest. Give this liniment a trial and you will never wish to be without it.

Toombs-Byrum.

Mr. Jno. Byrum and Miss Lillie Toombs were united in matrimony at the residence of the bride's parents on Methodist hill Tuesday night in the presence of a few friends. The ceremony was performed by Rev. Dame in a very impressive manner. Miss Toombs is the oldest daughter of Mr. and Mrs. W. A. Toombs, of this city and is a popular young lady. Mr. Byrum is an employee of the St. Bernard Mining Company and is a sober, industrious young man. The usual congratulations are extended by friends of the contracting parties.

FROM SOUTH AFRICA.

New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: 'A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the child's chest, it would cure the child. They did and brought about a quick relief and cured the baby.' This remedy is for sale by St. Bernard Drug Store, Earlington; B. F. Robinson, Mortons Gap; Jno. X. Taylor, Earlington.

Several of Red Hill people went to Cave Spring, in Muhlenburg, to the dedication. Dinner on the ground.

The genuinely precocious child is very rare. Parents are seldom justified in attributing to their children powers which are transcendent. The vanity of so doing would be harmless in itself if it did not sow a crop of terrible mistakes in the treatment of the child which tends to its bodily and mental undoing. The signs of brain fag in a child, says Dr. Grace Peckham Murray, in the August Delinquent, are easily read, and the warnings should be heeded at once. Parents should ever be watchful that the growth of the mind should not be made at the expense of the body, and the body at the expense of the mind. The child's mind is bound to be active about something; that is its normal condition. The mischief comes from overtaxing it with matters which are beyond its comprehension, or gorging it with impressions that at best the child can only partially comprehend.

The question of reading the Bible in school is being waged in the daily papers. However the question is decided, the fact remains that, even with the Sunday school training which nearly every child receives, there is the most deplorable ignorance of the Bible people. It would hurt no one's creed in any way to know that Moses was, or to listen to the story of Joseph and his coat of many colors, or Esau, who sold his birthright for a mess of pottage. Children can tell of Juno and Jupiter and Venus, although they know nothing of these characters, equally interesting.

In a Philadelphia kindergarten a teacher was telling the little children about a clock. "Now, this," she said, "is the pendulum—this thing that swings back and forth. Did any of you ever hear the word 'pendulum' before?" A child put up her hand. "Yes, teacher," she said. "Pendulum Franklin. I've heard it often."

The Providence Enterprise tells of a novel reunion held by Prof. J. Y. Brown and a number of his former pupils. The pupils were those he had taught 24 years ago at Johnson's Island school house. A goodly proportion of the 50 pupils Prof. Brown taught at that time were present at the reunion.

LETCHER R. FOX
Asks Loyal Support of Hopkins County
Republicans—"Gum Shoe" Methods
Denounced as False.

Madisonville, Ky., Nov. 1.
TO THE VOTERS OF HOPKINS
COUNTY:—

The earnest loyal support of my own party and the kind unsolicited expressions of many good honorable men in all parts of the County who are tired of ring rule give me assurance of victory.

The unusual effort of petty politicians to drive voters like a herd of cattle and the false foolish stories and "Gum Shoe" methods, "Large contributions funds" and singular Campaign lies, will meet the deserved rebuke of the intelligent manhood of my County who hold their suffrage sacred. I regret that circumstances have prevented me from making an active personal canvass meeting the voters face to face. If I am elected to the Honorable of County Judge I will try to make an efficient, economical and faithful officer, and will always be at my post of duty. Your continued influence and help will be sincerely appreciated.

Yours truly,
LETCHER R. FOX.

Cured Consumption.

Mrs. R. W. Evans, Clearwater, Kan., writes: "My husband lay sick for three months. The doctors said that he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six months ago. Since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c, \$1.00.

NEW EQUIPMENT

Being Received by L. & N. R. R.—To be Used on This Division.

Evansville, Ind., Oct. 31.—A large amount of new equipment, both for passenger and freight service, is being received by this division of the L. & N. On account of the constantly increased coal business 200 ninety-foot drop-bottom-cars have been purchased and are being hurried to different points along the road as fast as possible. Their need is already felt and the company from which they were purchased has been asked to make the entire delivery. Fifteen new coaches for the passenger department will be delivered here within the next few days.

Five new freight trains have been made up at Howell within the last few days in order to handle the increased coal and grain business. Superintendent Logsdon says it may be necessary to add still more crews but that unless there is a phenomenal increase in traffic he thinks the road is now in a position to handle all the business in his division.

A protective tariff.

Just pensions.

An efficient postal service in cities and in the rural districts.

Building the Panama Canal.

Having a navy adequate for defense.

Continuing peace, progress and prosperity, so that our own nation may be blessed and the whole world benefited by our influence.

Chamberlain's Cough Remedy is

Pleasant to Take.

The finest quality of granulated

loaf sugar is used in the manufac-

ture of Chamberlain's Cough Remedy, and the roots used in this

preparation give it a flavor similar to maple syrup, making it quite

pleasant to take. Mr. W. L. Roderick, of

"TAILOR MODES
FOR WEAR IN THE FALL."

"Dressy Modes may change quickly, but Manish Tailor Styles are likely to last."
"Tailored Gowns give apparent height to the petite girl—Three-Tiered Skirt for the very tall girl."

WHEN in doubt, buy a Tailored Suit. The fashions in the "dressy" frocks may change before the first frost arrives. A style which the modistes confidently expected to make a pronounced hit may fall flat. A "dressy" mode which is good in September may be very, very bad when the Christmas snows fall. But the tailored fashions, settled while yet the summer girl was taking her first dip in the salt water, are sure to last.

Men tailors determined the lines on which the genuine tailor made dress should be built and somehow the feminine mind bows before the masculine edict.

NOW that MISS BROWNING has returned with her second purchase of Cheviots, Unfinished Worsteds, Tweed Mixtures, Worsted Warp Broadcloth in the very newest shades, any one of which is admirably adapted to either the Tailor Made Suit or Skirt, and besides these has selected with her thoroughly trained eye and sound judgment some most excellent SILKS, these being "quite the thing" for SHIRT WAIST SUITS, and put on sale at remarkably close and attractive prices—49c, 65c, 75c, 90c and \$1.00 the yard, and with these shows the most beautiful shades in a 30 inch Satin Stripe Wool Challi at 50c the yard, that to be sold needs but to be shown, for how can one find any other material so perfectly adapted to Shirt Waists as this exquisitely shaded, soft fabric? And, in fact, has given our entire stock of DRESS GOODS and all departments pertaining thereto a very decided completeness. We doff our hat to the buying public, the numerous wishes of which we have striven so untiringly to anticipate, and respectfully ask a call, that we may the more thoroughly establish our claim to standing second to none in point of completeness of assortment and correctness of prices.

MADISONVILLE AND WATER.

On November 8 the question whether Madisonville shall have a system of waterworks will be voted upon by citizens, progressive and otherwise, of that city of sufficient wealth to have anything the public good demands. The Bee trusts that Madisonville's progressive citizens may greatly predominate and that they will decide by a large majority to take a little more water in their'n. The county seat was a fearfully long time getting away from the cheap, old plan of five months public schools, while she sat jingling her pockets full of cash and sending her favored sons and daughters to distant schools—letting the multitude of children do their best in the short, free public school held in any sort of room available. We write feelingly on this question because we were subject, as a boy, to just such indifferent public school advantages, and at Madisonville, and were numbered among the unfortunate majority who could not command better things. The town now has schools and electric lights, and waterworks and sewerage system should come next and not be long in coming. We are for home first, but want to see the entire county progress in all good things, hence our speaking out on this question which concerns directly only the citizens of Madisonville. There have been ugly fires there and others may come at any time, as uncontrollable and possibly much more disastrous. Madisonville should get water and get it quick. It wouldn't hurt the town and its Saturday and court day visitors to drink more of the limpid fluid, and it is certainly good to put out fires.

The Democratic spellbinders and brass banders of Hopkins and Webster counties are out on a campaign of "logic" this week. The ragtime of the banders is good and quite as strong argument as the ragging of the binders. This is another example of high plane politics.

EDITOR COLLINS, of the Green River News, didn't mean anything by associating the Democratic roster and ticket with the handsome picture of a large elephant—always the emblem of the G. O. P.—at which a small boy was firing wads from a popgun, but it certainly was funny. The roster surmounted the editorial column in true partisan organ style, followed by the ticket. Immediately under the candidates' names was the elephant picture underwritten with the sentiment, "You cannot kill an elephant with a popgun."

Some of the papers in the Third Congressional district who have been poking fun at William Henry Jones, the Republican nominee, and calling names may have a chance to change their views after election. The more conservative Democratic papers seem to show that they see a strong probability that Mr. Jones will win. And when he goes to Congress he will be found working and working always for the best interests of the district he represents. Mr. Jones is no more a B. O. J. than perhaps than is his opponent, Mr. Richardson, but he has succeeded in establishing

an enviable reputation as an honest, conscientious worker in legislative affairs while a member of the Kentucky Senate, and he bears this reputation among men who know him, Democrat and Republican alike.

If one should judge by the number of weddings in this vicinity during these election times, he might conclude that the orator has been abroad in the land and with arguments that were eloquent and convincing, for many have been "elected." With them the campaign is over and they are beginning to realize that they are the servants of the "people." However long, doubtful or expensive the campaign may have been, we are prepared to state on good authority that it has not been irksome or exceptionally unpleasant. True, his "party" may have interrogated him relative to his attitude on Imperialism, Woman's Rights and Free Trade; financial problems may have been discussed and the doctrine of 16 to 1 without the consent of other people politely denounced along with certain other Rooseveltian whims of expansion, yet without his "party" has whipped him into line and he stands today the victim of its beck and nod, a willing subject of a great Trust.

NEXT Tuesday comes the voting and then the shouting.

Most everybody except Urey Woodson believes Roosevelt will succeed himself. And Urey no doubt believes this, but he is claiming everything in sight.

The things that Bryan said against Parker just after the nomination weigh vastly heavier than all the attacks he has since made on Roosevelt. He was, from his standpoint as leader, righteously indignant then and said what he in his heart believed. His denunciation of Parker was scathing and complete and sincere. His later attacks upon Roosevelt cannot disguise his expressed opinion of Parker.

LETCHER R. FOX.

Republican Candidate for County Judge.
Letcher R. Fox was born at St. Charles, Ky., in March 1889. He was educated in the public schools of St. Charles, and at South Kentucky College, at Hopkinsville, Ky. Mr. Fox taught school for two years and afterward studied law in the office of Judge J. I. Landes, of Hopkinsville, widely known as a very able lawyer and former Judge of the Court of Appeals.
He was admitted to the bar four years ago, at the age of twenty-one, and has since been in active practice continuously. He is a man of the best moral standing and bears the reputation of an energetic worker. He is a member of the Christian church, a Mason, an Elk and a Knight of Pythias. Mr. Fox is a newly married man, having taken a bride on the 15th day of October. It was Miss Ora Clardy, a popular young lady of Christian county, who made the young attorney happy, and became Mrs. Fox on the date named.

A Physician Healed.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly troubled with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success."

A THOUGHT FOR THE WEEK.

Success.

If I could teach the business man
Three things, they'd make him
rich and wise.
Dead sure, yet simple, this my plan—
Be upright, work and advertise!
'Tis not enough to buy the best
To guard each leak with argus eyes
These were in vain without the rest,
The constant work and advertise.
For, though you work with hand and brain,
Success you never will surprise,
Hard work alone is all in vain;
Be upright, work and advertise.
For flour and water won't make bread,
Without the yeast, it will not rise.
Success is sure, if, as I've said,
You're honest, work and advertise.

TRAINS COLLIDE AT TIPTON, MO.

Three Persons Killed and Twenty-Three Injured in a Rear-End Collision on Missouri Pacific.

TRAIN WAS WORLD'S FAIR SPECIAL, AND WAS RUNNING IN TWO SECTIONS.

The Second Section Crushed Into the First While It Was Taking on Passengers at Tipton, the Rear Sleeper of Section One Being Telescoped and Completely Demolished.

Kansas City, Mo., Oct. 31.—Three persons were killed and 23 injured in a rear-end collision between section No. 3 and section No. 1 of train No. 3, Missouri Pacific World's fair special, at Tipton, Mo., early Sunday morning. Train No. 3, on account of the heavy World's fair travel, was made up in two sections, the first leaving St. Louis for Kansas City Saturday night at 10:10 p. m. The second section left a few minutes later, and when it reached Tipton, section No. 1 was taking on passengers. According to Engineer Ramsey, of section No. 2, a headlight in the yards blinded him and he was unable to see section No. 1. He also says that his orders were "clear ahead." The second section was running about 30 miles an hour when the collision occurred. The end sleeper of section No. 1 was entirely demolished and the second sleeper was overturned.

The Dead.
Mrs. Bright Walker, Lewisburg, Pa. Mrs. Margaret Burke, Kansas City, J. W. Bagby, address unknown.

The Injured.
W. J. Black, general passenger agent of the Atchison, Topeka & Santa Fe railroad, collar bone broken, wrist broken and bruised.
Mrs. W. J. Black, Topeka, ankle broken, head badly bruised.
Thomas Richardson, Portland, Ore., injuries slight.
Mrs. Elizabeth Brown, Kansas City, head bruised.
J. S. Calfee, St. Louis, serious.
W. H. Morrison, Sedan, Kan., hip injured.
L. B. Stoner, New York, serious.
W. W. Manspeaker, Topeka, arm and leg injured.
J. C. Wiles, St. Louis, back broken.
Raymond Morrison, Sedan, Kan., hip injured.

L. B. Twined, New York, serious.
B. J. Maguire, Trenton, Mo., slight injuries.
G. McEmery, Niles, Mich., knee injured.
Mrs. G. McEmery, Niles, Mich., slight injuries.
J. F. Hammer, Lawrence, Kan., slight injuries.
A. A. Seligman, serious.
Mrs. J. W. Skinner, Lampasas, Tex., nervous shock and bruises.
Miss Ruth Skinner, Lampasas, Tex., scalp wounds.
Cynthia White, Lampasas, Tex., nervous shock and bruises.
C. C. Porter, East Orange, N. J., scalp wound and foot cut.
Mrs. C. W. Donaldson, Kansas City, shoulder and arm hurt.
Robert Eaton and W. E. Price, Pullman porters, injuries slight.

Mrs. J. F. Skinner, Miss Ruth Skinner, Cynthia White, C. C. Porter and B. J. Maguire were taken to hospitals in this city upon their arrival here.

Section No. 1 was in charge of Conductor Sam Lovett. Col. J. E. Jewett, local passenger and ticket agent of the Missouri Pacific, who was on section No. 1 when the accident occurred, said:

"There were five sleepers on section No. 1. I was in the third from the end. About 2 o'clock I was awakened by a sudden crash. Donning my clothes I rushed to the platform and found the end of the sleeper smashed to kindling wood, section No. 2 having telescoped the two rear sleepers."

The injured were taken to Sedalia, La. It was said that A. A. Seligman's injuries were not as bad as at first reported.

Engineer Was Responsible.
Those of the passengers whose injuries were slight continued their journey, while the more seriously hurt were taken to the company's hospital in St. Louis. W. J. Black and wife of Topeka were taken to the Missouri, Kansas & Texas hospital at Sedalia. The engine of the second section struck the Pullman car Topas squarely, splitting it for two-thirds of its length, and all of the 14 passengers in the car were either killed or injured. There were 23 passengers in the next car ahead, and although all were badly shaken up by the collision and received a few scratches, only a few were injured seriously.

The blame, according to Superintendent W. J. McKee, who at once went to the scene of the wreck, rests with the engineer and conductor of the second section. They were running 25 miles an hour when the superintendent said, they should have had their train under control.

Death Instead of Marriage.

THE CAMPAIGN IN THE EAST

New York Will Witness a Battle Royal all This Week.

Both of the Great Parties Will Make a Supreme Effort to Carry the Empire State.

New York, Nov. 1.—Full steam will be put on by the republicans for a final campaign of New York state during the closing week, 500 mass meetings a night having been planned.

Secretary Taft, Secretary Shaw and probably Secretary Hay will storm the up-state cities early in the week, and will direct their last fire at the democratic fortifications in Greater New York, while National Chairman Cortelyou is to hurry back from Chicago to at least lend his presence, if not to speak, at Durland's riding academy in this city Friday night. Monday night the Republican Business Men's and Sound Money leagues were booked for a rally for Roosevelt at Carnegie hall, with Secretary Taft as the star orator. Friday night Ellul Root will make his final appeal at Durland's, which will probably end the republican oratory in this city. Saturday, Sunday and Monday will be devoted to arranging to bring out Tuesday's vote.

With Judge Parker on the stump nearly every night during the week, the wind-up of the democratic campaign promises to be exciting. In this state hundreds of meetings will be held every night. Tammany district leaders have been directed to pull the lever out to the last notch. The Parker meeting at Madison Square garden Monday night, was designed to represent the supreme effort of the democrats. Judge Parker making his first appearance on the stump, aside from his addresses to visiting delegations at Rosemont.

It is expected to give that impetus to the rising tide which democrats are now confident is with them and which they expect to see grow to surprising proportions before the end of the week. The result of Judge Parker's address on the stump, together with a great number of other meetings, at which many famous democrats are to speak, including ex-President Cleveland.

The democratic managers are confident that Parker will carry New York, and are predicting 280 votes for him in the electoral college.

GEORGE K. NASH DROPS DEAD

Ex-Gov. Nash of Ohio Succumbs to Heart Failure in His Bathrooms.

Columbus, O., Oct. 29.—Ex-Gov. George K. Nash dropped dead in the bathroom of his home, 43 Jefferson avenue, Friday morning.

Shortly after entering the bathroom a servant heard the sound of the fall of a body. His meaning was plain, for the ex-governor's sudden death had been expected for some time.

Nash was dead when the servant reached the room. He was a widower, and lived with his step-daughter, Mrs. Worthington Babcock, and her husband.

Nash was an inveterate smoker, and this aggravated his heart trouble. He served two terms as governor, and was one of the most popular executives in the history of the state.

Nash was born on a farm in Medina county in 1842.

The funeral will be held Sunday; interment in Greenlawn cemetery.

U. S. CONSULATE IS BURNED

Telegram From Amoy, China, Announces Destruction of the American Consulate There.

Washington, Nov. 1.—The state department on Monday received a cablegram from Amoy, China, announcing the destruction of the American consulate there, together with valuable papers. The message came from Consul John H. Foster, at Amoy, and reads as follows:

"Consulate burned with most of records."

Kills Wife and Himself.
Lowell, Mass., Oct. 31.—Everett Eaton, of Queen street, shot and killed his wife and himself Sunday afternoon.

The shooting occurred at North Chalmers, where Eaton and his wife who separated two weeks ago, had met by appointment.

Multimillionaire's New Home.
St. Louis, Oct. 30.—William K. Bixby has bought the palatial home of the late John W. Kauffman, opposite the Lindell boulevard entrance to Forest park, for \$900,000. It occupies an entire city block, and is one of the show places of the city.

Yellow Fever in Old Mexico.
Mexico City, Oct. 31.—There are six new cases of yellow fever in Toluca. There are in all 24 patients. The last patient has left the hospital at Tehuantepec. Meridid reports two new cases and Salinas Cruz four new cases.

Slain With a Club.
Des Moines, Ia., Oct. 29.—William Peddicord, a farmer living about eight miles southwest of Perry, attacked his wife with a club Friday morning, inflicting injuries from which she can recover, and then killed himself.

Taft Goes on Cruiser Columbia.
New York, Oct. 29.—Orders were received at the Brooklyn navy yard from the navy department, Friday, to fit the cruiser Columbia for sea at once, to carry Secretary of War Taft and the Panama commission to Colon.

Two witnesses have appeared in New York who say they saw James Young kill himself while riding in a cab with Sam Patterson.

MINING NOTES.

At the Davis coal mine, near Morgantown, a gasoline engine exploded Saturday and in the gas and smoke which filled the mine, eight miners lost their way. Seven of the eight crawled out, nearly suffocated. Several hours later the eighth man was rescued almost dead.

At Tipton, Colo., an explosion entombed forty-nine miners Friday, Oct. 28. While relief workers were preparing to rescue them, another slide of rock occurred. Huge bowlder made blasting necessary and the men are thought to be dead.

A strike of 800 hoisting engineers in 240 bituminous coal mines of Illinois went into effect Monday night. The cause of the strike is the refusal of the engineers to accept a reduction in wages.

Mr. William Lacy, of St. Charles, visited relatives here Saturday night and Sunday.

Foreman Toombs are putting in new scales at the Barney mine this week.

Mayking, Ky., Nov. 1.—Geo. Venters, a Letcher county teacher has sold his farm of 200 acres to the Mineral Development Company, a Philadelphia corporation, for \$10,000. The purchase of the Venter farm completes a block of several thousand acres owned by the Mineral Company, who will begin the development of these lands immediately.

Mr. Joe Cook has accepted a position with the mechanical department of the St. Bernard Mining Company.

Foreman Toombs and crew have been busy for several days this week erecting a new town chute at No. 9 mine to supply the local trade with coal during the coming winter.

The stable that has been under construction by Mr. Brown for some time at the new opening of No. 11 mine was completed Tuesday. All of the mules that are used in this mine will be quartered in the stable instead of being kept underground.

Mr. Will Smith, who has been working at Hecla, has resigned to accept a position with the L. & N. R. R. as brakeman.

Mr. Clem Daniel, of Henderson, has bought 1,800 acres of coal rights in the neighborhood of Reids, Zion and other portions of Henderson county and is making preparations to begin the development of these mineral lands as soon as arrangements can be made.

Prof. C. J. Norwood, of State College, who returned from St. Louis Tuesday night, is endeavoring to have the exhibit placed in the State Museum here, says the Lexington (Ky.) Herald, where it will be of great value not only as an educational attraction, but as an advertising medium for Kentucky's wonderful resources. After the Chicago World's Fair the most valuable of the mineral and agricultural exhibits from Kentucky were returned to the State Museum, then at Frankfort. Since then the museum has been removed to Lexington. Should the St. Louis collection be brought here it would be added to the one that is controlled by the State Geological Survey and it is thought it would prove to be of greater benefit to the State to have the exhibit here than at Louisville. It was largely due to his personal efforts that the mineral exhibit was made a success.

WATTERSON CONCEDES ROOSEVELT'S ELECTION

Declares President is Able Man and Politician Than Accredited.

Trenton, Mo., November 1.—Col. Henry Watterson, editor of the Louisville Courier-Journal, spent Monday afternoon and evening in Trenton. He thought he was dated to deliver a lecture here for the Slayton lyceum bureau of Chicago, but on arrival found that the date had been cancelled. Col. Watterson talked freely of his affairs, but mentioned politics rather guardedly. He said:

"No more campaigning for me. I shall go abroad in the spring. Yes, I have the New York Herald's forecast. The Herald probably has as good an opportunity to know the prospects as can be had. I presume its figures are approximately correct. There is always a chance in politics for the unexpected and highly improbable, but I see little prospect of anything better for the Democracy than the Herald has indicated. It looks like four more years of the same."

"History has several times proved that judges who have been on the bench for long terms make disappointing candidates. They are too staid. They have not the masses, and they seem to be out of touch with the people. They are always disappointed."

"Roosevelt is a much abler man and a much shrewder politician than he was given credit for being. It is true that he has ridden to all his distinctions on the crest of a popular tide, but he is not by any means blind to his own political advantage. He managed his nomination and his campaign himself, and there is no use denying that he has done a good job."

RED HILL.

Well, boys, it is corn gathering time now. The sooner you get your crops in the better for you.

The coal haulers are still busy in this vicinity hauling coal.

Mrs. Fannie Putman and children, of Hopkins, were the guests of her mother, Mrs. Lou Stanley, near Red Hill, Sunday.

Good Spirits.

Good spirits don't all come from Kentucky. Their main source is the liver—and the fine spirits ever made in the Blue Grass State could not remedy a bad liver or the hundred-and-one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in good condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—its great effect on all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been found a household remedy for over thirty-five years. August Flower will make your liver healthy and active, and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. At all druggists.

LOCOMOTIVE BLASTS

Phillips Hampton, section foreman at Evansville, has just returned from a week's visit at the World's Fair, being accompanied by Mrs. Hampton.

Engineer James Joyce has moved to Howell from E. St. Louis, out of which place he has been running on local for several years.

Monte Y. Shuster, of Renova, Pa., where he is employed in the Superintendent's office of the Penna Railway System, stopped off at Howell the first of the week on his way to the World's Fair. Mr. Shuster is a nephew of E. J. Young, the general foreman, whom he visited.

Fireman M. J. O'Brien has gone to braking.

Engine 999 from Bakers Hill has gone to Howell shops for a general overhauling.

Geo. Hartman of Howell has been appointed foreman of car repairers at Earlington.

Brakeman H. Saeger got his finger mashed the other day between a switch stand and lever.

E. E. Jarrett, the general foreman at Nashville, spent a few days at the Fair last week, stopping off at Howell on his return to visit his parents and friends at the shops. Mr. Jarrett was formerly foreman of the round house at Howell.

A. A. Beyerstedt, switch fireman in Evansville yard, is taking in the fair. So also is switch engineer Sullivan.

John Martz, switch engineer at Mt. Vernon, Ill., is visiting the Fair. Fireman Hugh Flannigan is running the engine in his place until he returns.

E. St. Louis switch fireman L. Seigler and Wm. Hennessy have resigned.

Tom Lewis, machinist helper in the Howell round house, has resigned. He will return to his home near Providence.

W. A. Mitchell, foreman car department, Howell, went to Nashville, Tenn., on the 2nd.

A hustling railroad clerk wrote a note in the biggest kind of a hurry. He scribbled that note in precisely one-half minute. The blotter was not handy, so he lost a full minute trying to find it, and then he discovered that he did not need a blotter at all as he had been writing with a lead pencil.

Letters of an engineer to his master mechanic, No. 2. Dear Sir: I am sorry to have to advise you that we had a rather bad delay on this trip. As you will recollect the watch inspector turned my watch down because it had to be turned up too much and you give me to understand that I had to buy a new one, which I did. Well, sir, that new watch stopped on me right at the place where the 213 jumped the track three years ago and tore down a mile of fence. The only thing I could do was to stop the train and go to the nearest farm house and set the thing, as the conductor's watch had been taken away from him just a previous by train robbers, who got off the train and scooted when I stopped. The nearest farm house was a mile away. So we were delayed about over an hour, as they didn't have the time, and had to go still further. I see now, however, that the proper way to have done would have been to have gone into the first station and asked the agent. I say that to save you the trouble of reprimanding me, as I have already kicked myself for walking so far.

THE NIGHT BEFORE 'LECTION.

S. W. Gillilan in Baltimore American.

'Twas the night before 'lection, and all through the land
 Ev'rybody was speling, including the band;
 All the prophets were prophing and liars galore
 Were claiming to have a straight tip on the score.
 Claimy silence hung over Esopus as though
 The landscape was wrapped in a mantle of snow;
 Ev'rywhere else there was bustle and clang—
 The spellbinders bound and the welkin re-rang
 With heated-air estimates wild as a deer,
 And Taggart's forced smile reaching back to each ear.
 The tapping of hammers was everywhere heard—
 'Twas the nailing of lies as they swiftly occurred.
 Pa Davis was saying, while rubbing his goat,
 "Thank heaven, tomorrow we'll be down and out."
 Bill Bryan was shouting at the top of his voice,
 Proclaiming "On Wednesday we're sure to rejoice."
 With him it was true, for he'd jump and holler
 To see Alton B. get it under the collar.
 Tom Watson was saying: "By gravy, 'twas me
 Gave Alton and Henry the lalaps-see!"
 Si Swallow was figuring what it had cost
 To play he was leading a cause that was lost.
 Gene Debs and his partner were wondering how
 They'd fare in the morrow's post-bailot-box row.
 While Corrygan, Cox and the others galore
 Were patiently waiting, prepared for the worst.
 And ready to bet they didn't land first.
 But Teddy and Charley and George B. C.,
 With Cannon, Elihu and William H. T.,
 McComas and Lodge, Leslie Shaw and the others
 Who'd stood at the front in defense of their brothers,
 Were saying: "We're ready to lick 'em tomorrow.
 To hand them a goodly collection of sorrow.
 Though Issie and Art joined their forces to win,
 Their dummy stays out and our Teddy stays in.
 There wasn't a question this year they were right on—
 They've fought a bum battle with nothing to fight on."

Frightful Running Sores

and actual rotting away of the bones and flesh result frequently from lack of attention to the proper cleansing of the blood when it is a little out of order

It has been proven to us beyond the shadow of a doubt that Foerg's Remedy will cure Specific Blood Poison—the king of all blood diseases. Therefore why fool with anything but this wonderful remedy if you have any of the mild forms of poisoned blood; such as Scrofula, Eruptions, Pimples, Catarrh, Rheumatism, Salt Rheum or Rosacea?

FOERG'S REMEDY IS A SAFE REMEDY

Containing no mercury or other injurious substances it is an entirely vegetable product and is composed of some of the best and rarest drugs known to science.

Because of their expensive and rare nature, they are very seldom used by the practicing fraternity.

The formula from which Foerg's Remedy is made is the result of many years of study and practice of an eminent physician, who found it wonderfully successful.

If you are a victim of specific blood poisoning, scrofula, or any other form of impure blood poisoning, your future happiness depends upon whether you receive the cure which Foerg's Remedy is the king of truth and sincerity which inspires faith, and does without requiring these qualities in our statements—you are willing to give Foerg's Remedy a fair chance to relieve your present suffering, and by cleansing

your system of the foul disease which now oppresses it, grant you a new lease on manifold or womanhood.

Remember, also, if you have been a user of mercury or other mineral poisons, your case is not our least concern.

More than ever do you need the wholesome, active, purifying power of Foerg's Remedy to rid your veins of this most baleful drug.

Act now—on the impulse that is in your heart. Go to your druggist or write us and procure the remedy.

What is a five-dollar bill in comparison with a lifetime of continued misery? If your druggist does not handle this remedy send us \$1 for one bottle or \$5 for six bottles, with our absolute guarantee or money refunded by druggist or this company in full. All packages sent first-class express. All correspondence strictly confidential.

"GET AN ACRE AND LIVE FROM IT."

Chairman George H. Maxwell, of The National Irrigation Association, Urges Every Wage Earner To Cultivate a Home Acre Near Place of His Employment.

Great Falls, Mont., Nov. 1st.—Special—The wage earners of the country and those who would ameliorate the hard conditions of the laboring man and see him established in comfort in a home of his own will find most interest and profit in the campaign and lecture tour which is being made throughout the west by George H. Maxwell, executive chairman of The National Irrigation Association. Mr. Maxwell has spoken at the principal cities in

Montana and his programme takes him also through Washington, Colorado, New Mexico, Arizona, Texas, North Dakota, besides large eastern centers.

The lamp of hope which he held out to the west and to the country at large in a speech at Great Falls was that the idea should be fostered that any strong man can from one acre of good ground get a good living for himself and family.

"Get an acre and live on it," he said. "Get an acre and live on it! I wish I could burn that thought into the heart of every working man in America. In the west I would say, 'Get an irrigated acre.' Mr. Maxwell declared that if every man who now works eight hours a day in a factory or a smelter could work four hours a day in the factory and four hours a day on his acre of irrigated land he would double his income and he would insure himself, his wife and his children against want when the day's wages should stop.

Change Our Educational System.

"But we must have a different system of national education from the present one," he said, "which trains our children away from the land. This idea is gaining ground. We have manual training and domestic science taught in some of our schools. That is getting back to the true system of education where, instead of the old folks remaining at home to die alone while the boys go to the cities with the idea of becoming millionaires but to end as counter jumpers and clerks, the making and keeping of a home is taught.

"One more thing should be coupled to the school system. Every child should be made a gardener and a horticulturist. The winter term should be devoted half to books and half to work on the benches, and to summer term should be devoted to agriculture. The boys would learn to build a home and the girls to care for them as wives and mothers.

Better Than Prohibition Laws.
"The way to close the saloons is to teach the girls to cook. Many a man has gone wrong because a woman can not cook. The summer school should be at the edge of the city where children could attend it

from the kindergarten to the high school. They could be taught to raise everything on five acres that goes to make a home. We are gradually getting away from the heresy that money is all in this life and that men must raise something, sell it and buy something back again before he gets what he wants. God intended us to make a living directly from the land.

"The evil of our life is not that the rich are getting richer or the poor are getting poorer, but it is the lack of cultivation of the soil. No man can oppress a sturdy race of farmers that own and till the land. There are great resources in Montana, but if the people want to develop them on sound and enduring lines, they must be developed in such a way that the masses of the people will be rooted to the soil. Her mines are wonderful in their productiveness, but their greatest wealth lies in her rich soil.

Farm Acre Colonies Being Established.

"The movement is already begun to establish farm acre colonies where men in the east who have a little money can come out on to an acre of land and live there for a year or two years and be taught how to farm. Then they will be colonist farmers worth having and this will relieve, too, the congested centers of the east. There are thousands and hundreds of thousands of such men in the east, and every live community in the west should plant such a farm instruction colony. The work has begun in Arizona and when its good results are seen the plan will be adopted by every western section, for it will appeal to all classes. It will appeal to every western man who desires to see his country settled by thrifty citizens. It will appeal to the merchant; it will appeal to the man who has land to sell. The land is the greatest resource of a nation. Our public lands should be securely held for the real homesteaders.

"The National Irrigation Association stands for a rigid land policy that will balk the grafts of every land grabbing scheme. It wants the title of all timbered lands to remain with the government and the swampy sold, but the land to remain in the government so that our water sheds shall not be helplessly destroyed. It asks that every man who gets his title from the government must be an actual settler and to show his good faith by living upon the land five years. You cannot expect the east to donate mil-

lions to reclaim lands that go into speculative land schemes."

Capt. William Grady, who has a famous corn farm on Diamond Island in the Ohio River near Henderson, has begun gathering his crop. The Henderson Gleaner says he has 100 hands at work. The captain says he has 1000 acres of fine corn and that it will take this force six weeks to gather it.

The Corvdon News says that Dr. H. S. Jones has put on exhibition corn stalks 14 feet and 3 inches high that bore corn 9 feet from the ground. He has issued a general challenge to all to beat it if they can. They have, gladly tell the story of any taller corn farmer if the specimens are left at this office.

Poultry Notes.

Turn the poultry into the garden.

Sell off all hens that do not show signs of moulting.

Get rid of the surplus cockerels as soon as possible.

Clean the nests regularly to keep them free from vermin.

Poultry like old plastering as it comes from the house.

It is now time to commence feeding a warm mash in the morning.

Dry packed poultry is the best for shipping in warm or doubtful weather.

Poultry in open sheds may be protected by wire netting without shutting out air.

Overfeeding is expensive. It not only costs more for the feed, but the hens get too fat and lay no eggs.

Do not fail to give the buildings a thorough whitewashing before placing the birds into winter quarters.

A small quantity of linseed meal added to the soft food makes a good ration for fowls during the moulting period.

The cockerels which do not go to market within the next thirty days will eat their heads off before prices are higher.

Gather plenty of dry leaves to be used as scratching material during the winter months. You will never regret that you did.

A daily allowance of fresh cut bone and a bit of meat will help the fowls through the moulting season in good shape.

All grain damaged by dampness may be freely fed to poultry if thoroughly dried out in a hot oven.

Scorch it just a little.

The earlier your pullets were hatched last spring the better layers they will be this winter. It will not pay to winter the late hatchers. At least once a week you should give the foot and perches a good cleaning, remove all droppings and scatter a little dry earth or sand about the floor.

The Burley Tobacco Growers Co., which proposed to control the output and prices in Central Kentucky, is about finished, so says President W. B. Hawkins, of that organization. He announces that the growers failed to do their part and that the movement has for that reason been a failure.

Hopkinsville, Ky., Oct. 31.—Hugh Witt, the thirteen-year-old son of Sylvester Witt, of this city, while attempting to get on a L. and N. freight train at Castaway, fell under the wheels, and his right leg was so badly crushed that amputation was necessary.

Judge W. H. Yost, of Greenville, and Mrs. Lota M. Meyer, a well known portrait painter of Louisville, were married at Tate Springs, Va., last week. Two years ago Mrs. Meyer engaged Judge Yost to transact some legal business for her, an attachment sprang up between the two which ripened into love and culminated into marriage.

HAPPENINGS IN KENTUCKY.

The town of Corinth, Ky., was visited by a disastrous fire Oct. 29, which destroyed \$50,000 worth of property, including 21 buildings, practically the entire business portion of the town.

Newport, Ky., Oct. 31.—The family and the friends of Herman Koegel, a prominent druggist of this city, are extremely worried over his continued and mysterious absence, and foul play is feared. Koegel went to French Lick Springs October 12 for a brief rest. Two days later he left the springs and nothing has been heard of him since, though a systematic search has been made. Koegel is thirty-seven years of age, five feet ten inches high, and weighed 225 pounds. He wore a black frock coat, black Alpine hat and turned-down collar. He carried a lady's watch, hunting case, Elgin movement.

Williamstown, Ky., Oct. 31.—H. A. Perkins, a young and prosperous farmer of Crittenden, this county, met death in a most horrible form. He arose at an early hour to build a fire in the kitchen stove, and, after getting everything in readiness, poured a quantity of coal oil on the kindling. Immediately there was a blinding flash, which enveloped Perkins, and the unfortunate man screamed for assistance, but there was none near. When the neighbors were aroused they found him on the floor dead and pieces of flesh scattered about that had fallen from his cooked body—evidence that he had died in great agony. To make matters worse, his wife was in an adjoining room with a new-born infant in her arms, and the screams of the dying man so frightened her that she is now in a critical condition.

Danville, Ky., Oct. 31.—A fast special of the Q. and C. railroad collided with a hand car at the depot here today, and six section men had a narrow escape from death. The men were not expecting the special, which was several hours overdue, and just had time to jump for their lives when the collision came. The car was torn into fragments. The train was a through freight from New Orleans to Cincinnati, bound for President Spencer and several from prominent railroad officials.
